Christelle Govan

Nationality

New Caledonia

Course

General English

Crown Diploma in Tourism (Management)

I started with 5 weeks of English course at Crown English. It was absolutely amazing. I wish I stayed there a bit more. The tutors were very helpful and their way of teaching made the classes fun and enjoyable. I left Crown English with regrets but then I started my courses at Crown Institute where I also met amazing people.

The facilities are great as well as the staffs who are available to help students but what made me chose Crown was the courses. The lengths of the courses are not long but the students can still gain a great qualification. There is a fair amount of students in each class which enables the tutors to spend time helping the students. Studying IATA was the best. I really do not regret it. I learnt so many new things and my classmates were the best.

I would definitely recommend to anyone wanting good qualifications without having to study for a long time and I am sure I will be able to put into practice what I have learnt at Crown in the workplace.; hopefully in the travel and tourism industry.
