Studying at Crown is definitely a great experience. They offer so many different English courses – everybody can find something suitable. Indeed I couldn't decide between my favourite programmes but thanks to the flexibility of the management I was able to attend both. I really appreciated that my counsellor was always there for me to answer questions and arranging anything.

Furthermore the tutors are very kind, helpful and encouraging the students. I must say they brought me forward. The courses were interesting and we practised each skill. In particular I liked that you can find easily friends from all over the world at Crown. Another advantage is that they organise many activity programmes.

Besides, my homestay family was perfect. We got on really well and they always made me feel welcomed. I will never forget my stay in New Zealand and I wish to go back one day.
