Nationality

Taiwan

Course

General English

National Diploma in Business

Hi, I am Mei. I have studied at both Crown English and Institute of Studies for gaining my Diploma in Business since 2008 and I really acquired a lot of values from Crown and enjoyed it. Tutors in Crown are experienced and certified which means the knowledge and abilities we have been taught are practical and absolutely valuable whether at university or even workplace.

Furthermore, students of Crown are basically self-initiative that we built up such a great study atmosphere to benefit ourselves by doing a considerable amount of research, diligently studying at 7th floor and also attending to the consultation time which is a good opportunity to sort out queries given by individual tutors once a week. On the other side, student facilities such as lounge, computer facility, self-assess equipment and so on are totally available to us, that is the greatest part I thought of Crown!

In addition, if you are an international student like me, you will have a supportive counsel service all the time as well.

Mei
